

What is Level All?

- Level All's mission is to provide every American family and high school student with the personalized, in-depth support and guidance needed to succeed in high school and beyond.
- The Level All app and website delivers a continuously updated content library of thousands of in-depth, unbiased, and snackable videos, articles, quizzes, audio experiences, slideshows, infographics, and checklists covering the issues facing high school families.
- From planning for college and the high school experience to discovering careers and essential life and financial skills, Level All guides students, their guardians, and their families every step of the way.

How does Level All work?

1. **Set Your Goals:** Comprehensive content created by industry experts helps you make informed decisions about the best college and career pathways for you!
2. **Build Your Personal Plan:** Put your dreams into turbo drive with a customized plan. Level All will guide you toward your goals step by step and alert you with upcoming deadlines & opportunities.
3. **Make It Happen:** Get help lowering the cost of college, finding internships, becoming financially empowered, and landing your dream job. Our resources will help you launch yourself into the life you deserve.

Does Level All cost money?

No! Level All is completely free (for life!) You just have to create a free account.

Why Level All and JA JobSpark?

JA has partnered with Level All to help enhance our JA JobSpark curriculum and provide additional career exploration resources for students to use in 8th grade and beyond! All teachers and students can create an account to view what the platform has to offer, though we are only adding a few resources to our curriculum this year.
